

# RFID CERTIFICATION TRAINING

## ABOUT RFID4U

RFID4U is the largest RFID training company on the market and has trained and certified 1,000's of commercial and government technical personnel in all facets of RFID theory, applications and implementation via an instructor-led on-site, off-site, conference and eLearning programs. Training is just one division of RFID4U.

RFID4U is a solution provider that develops and implements business intelligence solutions in various verticals, such as healthcare, agriculture, manufacturing and government among others.

## ABOUT RFID CERTIFICATION

RFID4U works with RFID Professional Institute to administer a range of RFID certifications that were developed based on today's applications of RFID technology and driven by the need for standardized testing for RFID professionals.

## THE COURSE INCLUDES

- Presentation
- Extensive Hands-on Training
- Interactive Labs
- Training Manuals
- Cert. Practice Exams
- Sample Tags/Labels

## ABOUT THE INSTRUCTORS

Our courses are taught by instructors that have many years of field deployment experience, have taught hundreds of classes and written RFID books. Our instructors are passionate about technology and love sharing what they know!

Tuition fees include training materials, certification training voucher and refreshment.

## 3-DAY TRAINING ~ RFID CERTIFICATION ~ REAL WORLD SCENARIOS HANDS-ON LABS ~ LATEST RFID EQUIPMENT

This advanced, three-day training course with certification, featuring the latest equipment and relevant scenarios, provides a solid foundation for designing, installation, configuration, monitoring and troubleshooting of RFID systems for small to large businesses, as well as prepare you for new RFID Professional Institute Certified Associate exam.

Built around physical hardware deployment of RFID, our intense, hands-on certification training course is presented in a multi-vendor environment. In this course, you'll go beyond the RFID Professional Institute certification requirements and deploy the concepts covered on the certification exam in a real-world, hands-on environment. Labs are fully equipped with the latest state-of-the-art RFID equipment. We can also bring it to you for an ON-SITE training!

## WHO SHOULD ATTEND?

This course is designed for all auto-ID professionals, RF engineers, system integrators and users who need to gain critical skills to design, install, maintain and troubleshoot RFID based systems.

We offer a condensed version as a **FAST TRACK 1-DAY COURSE** at RFID Conferences.  
Check out the class schedule!

## TOPICS

- ☒ Introduction to RF Fundamentals
  - ☒ Frequency Bands
  - ☒ Propagation
  - ☒ Tag Types
    - ☒ Passive
    - ☒ Semi-Passive
    - ☒ Active
    - ☒ RTLS and Location systems
    - ☒ Sensors
- ☒ Architecture Components
  - ☒ Tags
  - ☒ Readers/Interrogators
  - ☒ Antenna
  - ☒ Input & Output Devices
  - ☒ Software
  - ☒ Networks
- ☒ Privacy, Security and Safety
- ☒ RFID Standards and Regulations
- ☒ Ecosystem and Provider Roles
- ☒ Business Applications and Implementation
- ☒ Evaluation and Selection
- ☒ Solution Design
- ☒ Deployment Steps
